

QUALITY POLICY STATEMENT

At GT JONES our aim is to be a leading national supplier of electrical equipment including those for hazardous areas.

We will achieve this by focusing on the following key objectives:

- Provide our customers with high level of service and product of fine quality which meets or exceeds all their requirements and comply with the applicable standards.*
- Set measurable target and objectives, against which, we can gauge the performance of our Quality System.*
- Be efficient, profitable and produce the expected financial result set by the parent company, whilst meeting our legislative and social obligations.*
- Sustain a highly competent, confident and enthusiastic team of staff in a safe working environment.*
- Ensuring the products sold comply with all current applicable standards in particular any EX related schemes.*
- Continually endeavour to improve the efficiency and quality in all aspects of our business.*

In order to achieve the above objectives, the company has adopted the ISO9001 and IECEx Standards where applicable as the framework for management of its systems and processes and is committed to ensuring ongoing compliance to these standards.
